

Baseerah Institute — Brand Reference

Who We Are

Baseerah Institute is a female-led Islamic institution founded in 2016 by Shaykhah Rukayya Samsodien, responding to a need in the Cape Town community for female-led scholarship — run by women, for women. We offer part-time courses, short courses, and workshops throughout the year rooted in traditional Islamic sciences.

Tagline: *Consciousness through Knowledge*

Founding Ayah: وَمَا خَلَقْتُ الْجِنَّ وَالْإِنْسَ إِلَّا لِيَعْبُدُونِ (And I did not create the jinn and mankind except to worship Me. — Surah Adh-Dhariyat: 56)

Brand Voice & Tone

The vibe: A trusted older sister who has walked the path of knowledge — warm, grounded, and serious about the deen without being intimidating.

- Warm and welcoming, never cold or corporate
- Scholarly but never elitist — beginners are always welcome
- Faith-centred in language and framing
- Sisterhood-forward: inclusive, communal, encouraging
- Confident in what we offer without being boastful
- Never hustle-culture, never hype — quiet excellence

Voice always feels like: sitting in a halaqah, not reading a brochure.

Visual Identity

Colours

Name	Hex	Use
Institute Teal	#009EA8	Primary brand colour — logo, buttons, key headings, accents. Blue-leaning teal, matches logo and poster headers exactly.
Teal Mid	#007A82	Darker teal for hover states, subheadings, secondary accents
Deep Charcoal	#1A1A2E	Primary text, nav, dark sections
Warm White	#FAF8F4	Primary background
Soft Cream	#F2EDE4	Section backgrounds, card backgrounds
Gold Accent	#B8872E	Supplementary only — not in core Baseerah brand materials, used sparingly for warmth

Colour logic: The brand is teal + black + white at its core — as seen across all posters and the logo. The teal is distinctly blue-leaning (ocean, not forest). Cream/warm backgrounds are a website-specific addition for warmth and readability but should never dominate over white sections.

Typography

Role	Font	Notes
Display / Hero headings	Cormorant Garamond (Italic or Regular)	Elegant, scholarly serif — reflects the classical tradition
Section headings (H2, H3)	DM Sans Bold	Clean, modern, strong
Body text	DM Sans Regular	Readable at all sizes
Labels / Eyebrows	DM Sans, uppercase, tracked	Small caps feel, used above headings
Arabic text	Noto Naskh Arabic	Renders correctly across devices

Logo

Square teal block with white Arabic calligraphy + “BASEERAH institute” in clean sans-serif beneath. Never alter the teal block colour. Always use on white or cream for light

placements; white version on teal/dark backgrounds.
